

ATTENTION PARENTS!

Do you have time to help us investigate how children learn to understand speech?

WHO

Children 3-6 years old who are developing typically or who were born prematurely or had lots of ear infections

WHAT

Participate in simple listening, picture, and word games during four visits over two days

WHERE

The Speech Development Lab at the University of Florida

Participants will be paid \$100 for the four visits and get a free lunch!

Contact us for more information on this research study!
